

A person's hands are holding a tablet computer. The screen displays a real estate market monitoring application. At the top, there are several filter tabs and dropdown menus. Below these, there is a line graph titled "Showings Per Listing" with three data series: a blue line, a red line, and a brown line. The blue line shows the highest volume of showings, followed by the red and then the brown line. The background of the image is a blurred outdoor setting.

About

ShowingTime

ShowingTime is the leading market stats and showing management technology provider to the residential real estate industry. Its MarketStats division provides interactive tools and easy-to-read market reports for MLSs, associations, brokers and other real estate companies. Its showing products and services take the inefficiencies out of the appointment scheduling process for real estate professionals, buyers and sellers, resulting in more showings, more feedback and quicker sales. The ShowingTime mobile app equips users to schedule showings, review appointments, generate reports and more. ShowingTime products are used by 190+ MLSs and associations representing more than 900,000 real estate professionals across the U.S. and Canada.

For more information, visit www.showingtime.com.

ShowingTime Showing Index

The ShowingTime Showing Index tracks the average number of buyer showings on active residential properties on a monthly basis. Our national and regional indices are computed based on approximately 110,000 listings from 25 local markets across the U.S. Our methodology focuses on properties listed by agents subscribing to ShowingTime's full appointment management solutions at the agent and office levels. It includes all buyer showing appointments requested or logged across all ShowingTime systems, including ShowingTime for the MLS, ShowingTime Front Desk and ShowingTime Appointment Center.

For inquiries, contact research@showingtime.com.

The ShowingTime Showing Index tracks the average number of buyer showings on active residential properties on a monthly basis.

ShowingTime Research Team

Daniil Cherkasskiy

Chief Analytics Officer

Daniil manages the company's internal analytics systems, data warehousing and data product development. Prior to joining ShowingTime Daniil worked as a quantitative analyst designing trading strategies for the derivative markets. Daniil graduated summa cum laude from the University of Illinois at Chicago and is pursuing a graduate degree in predictive analytics at Northwestern University.

Michael Lane

President

Michael leads sales and marketing at ShowingTime. A founding management team member, he works directly with many of ShowingTime's 190+ MLS customers and many of the largest real estate companies throughout North America. Previously he served as a management consultant with A.T. Kearney and as a naval officer aboard nuclear submarines. Michael has an MBA from the Kellogg Graduate School of Management, a Masters of Engineering Management from Northwestern University and is a distinguished graduate of the U.S. Naval Academy.

Scott Woodard

Founder & Chief Executive Officer

Scott is an active leader in the Chicago technology community. His previous company, ZyLAB, developed the first PC search engine. Scott has expertise in voicemail technology, having developed one of the first automated voice delivery and notification systems. He is a founding board member of the Information Technology Association of Illinois and formerly served on the board of directors of Woodard Development Corporation, a real estate development firm. He holds several patents in real estate technology and other areas. Scott has a Ph.D. in Electrical Engineering from the University of Illinois.

ShowingTime Showing Index™

United States Report

Methodology: The ShowingTime Showing Index™ measures showing traffic per residential property for sale by agents and brokers utilizing ShowingTime solutions for property-access management. A higher number means that an average home receives more buyer visits in a given month. All index values are scaled relative to initial index value set to 100 for January 2014.

Summary	June 2017	May 2017	June 2016	Percent Change
The national index was up 10.3% over last year. Year-over-year gains are expected to continue.	130.8	137.7	118.6	+10.3%

June

ShowingTime Showing Index	Prior Year	Percent Change
July 2016	105.2	+10.0%
August 2016	100.9	+11.0%
September 2016	91.8	+13.0%
October 2016	93.8	+9.9%
November 2016	84.7	+13.6%
December 2016	78.8	+12.3%
January 2017	117.9	+14.5%
February 2017	129.6	+10.1%
March 2017	143.4	+10.0%
